

# Zion Church pattern is from a single die machine

Robert D. Balcome  
(#106L) writes to correct  
our article on the Zion  
Church Designers &  
Builders perfin  
(September 1999 *Bulle-*  
*tin*). Balcome had sent  
us a strip of ten  
punches from the perfo-

rator  
which  
led us to  
the im-  
pression  
that the  
perfora-  
tor had  
ten dies.

In fact, the perforator is  
a single die machine. We  
regret the misreading.
